Hammarprodukter H80 Combo Signs

For labeling of stations, outdoor switchyards, isolators and transformers where a higher degree of readability is required. The characters are screen printed on 1,5 mm polyester varnished sheet aluminum and treated with varnish after printing. The baseplate uses 1,6 mm extruded aluminum painted in black weather-proof paint.

The system consists of the following parts:

- Baseplate
- Single characters
- Sign holder

You can choose between "self-assembly" and "ready-made" signs.

H80 - Characters

The characters are screen printed in black on yellow sheet aluminium and coated with varnish after printing.

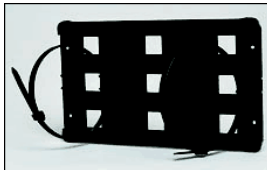

H80 - Holder

For fixing to wooden poles. Including distance screw. 10 x 125 mm distance provides clearance between pole and sign for pole climbers.

EE 06 685 61

H80 - Baseplate

The edges of the baseplate are folded so that the characters of your choice can be inserted. Delivered with punched out holes and moldings for fixing with lashing wire or straps.
